FS2004 The Rilo Aeronautics Execu-Jet

Description: Aloha! The Rilo Aeronautics Execu-Jet was designed with the Beginner in mind with easy flying and below 500 miles per hour, its the perfect plane to get used to Jets, and the perfect small Executive Jet for the smaller Company. Moving head for the Pilot, full working surfaces and the Door opens with the (Shift-E) buttons. Interior lighting and well dressed Crew. All moving surfaces and reflective paint. Just unzip and place it in your main airplane file. Panel by Ric and Gauge work by Allen I.

FS2004 Vickers VC-10 in Romanian liveries

Description: The VC-10 was always one of my favourite planes and recently I learned that TAROM (Romanian Air Transport) intended to buy several VC-10 aircraft in the early 70s (type ID would have been 1162). Unfortunately in the end they decided against it. These repaints show how would have this great aircraft looked like in Romanian colors. It contains three Tarom liveries from different decades, one LAR (Tarom charter) livery and one Romavia (governmental) livery. Aircraft by David Maltby. Repainted by Gergely Kosa. Package includes model too so no additional files are needed to work, however it's highly suggested to download the VC-10 panel, cockpit views and sounds from David's site. <http://www.dmflightsim.co.uk> Have fun, Gergely Kosa, Bucharest
