Shuttle

Repaint for the Vistaliners 727-200Adv Delta Shuttle circa 1999 Textures only. This is old school Delta at its best. Delta Airlines acquired shuttle routes from Pan AM in September 1991. This aircraft was one of the sixteen workhorses in the Northeast flying sixty-four daily scheduled flights between Boston Logan, New York La Guardia, and Ronald Reagan Washington National. The 727s were phased out and replaced by 737-800 and MD-88's around 2000.
