### FS2004 This is a new updated stand-alone SAAB JA 37 Viggen

Description: This is a new updated stand-alone SAAB JA 37 Viggen fighter with new weathered textures. There is some difference in this soundpack compared with my other downloadable pack which give your Viggen an improved sound experience. The sound is recorded from the real thing while still in duty. Simply extract the file into the folder of the Aircraft directory. Model is of Kazunori Ito's origin. Only repaint and soundpack from me. No panel included. Enjoy!!! perbjorkqvist
