### FS2002 Sound-Boeing 767 Sound Package V1.0.

Description: This sound package is fully accurate, and is based on sounds of a real Boeing 767 in flight. All sounds flow smoothly into each other, spooling up to a very powerful effect at full thrust, which gives this sound package a very realistic and dynamic impression of the real 767 sound. For use with all Boeing 767 aircraft. By Brandon Williams and Aaron R. Swindle.  
Version: Freeware Filesize: 2.77 MB
