### FS2004 Authentic General Electric CF6-80C2A Series Sounds A306/A310 Version 5

Description: Authentic General Electric CF6-80C2A Series Sounds A306/A310 Version 5 Yet again another version of my GE CF6 Sounds for the A300 and A310. This time you'll notice various improvements such a reduced file size, which will tremendously improves your framerates and for you Dial Up users. No More Download Headaches! Improved Engine whine I added more bass so you'll be able to hear the rath of these powerful engines, a recently recorded Max Power Buzz Saw Like Sounds Heard during take-off. I also reprogrammed some of the exterior values so the time the engine has to whine has increased, compliments to some new ways for the exterior set. I'd Like to furthermore present to you FS Sound Project's Second release, however I want to apologize for providing you downloader's the wrong link to my website where I would love to hear your feedback or if your experiencing any difficulties please report them to us on our Forums at [www.fssound.cjb.net](http://www.fssound.cjb.net) (bad link was .cbj) Once signed up on our forums i'll happily respond to your query. Once again this is "As Real As It Gets" and is by far the most comprehensive soundset for this plane period. Please Enjoy!!Emil Serafino Jr. (FS Sound Project)

### FS2004 Erick Cantu's B727-200 Sound

Description: This soundset is intended to be used with the new Erick Cantu's B727-200. The sounds captures the real atmosphere inside and outside the cockpit, making even higher the pleasure to fly that fantastic aircraft.

Instalation:Backup your original 727 sound folder (ex. rename it to "sound.back"). So, in case you don't like the new soundset, it will be easier to go back to the original one.Extract the downloaded ziped file to a temporary folder and move the sound folder to your Erick's 727 aircraft folder. That's it!!!

Enjoy.Throttles ahead and nice flights!!!Fbio Bonoldi
