### FS2004 Pratt Whitney JT9D-7R4G2 Soundset

Description: The most powerful classic 747 engine of all time can now be yours. The Pratt & Whitney JT9D-7R4G2. This was the most popular engine variant for the 747-100 through -300 and also was the later model of what powered the 747 on its maiden flight. Hear that certain high pitched scream at full power followed by that deep groan and you'll feel right at home with the engine. Recommended for use with the Project Opensky 747. Devyn J. Silverstein

Version: v1 Filesize: 32.67 MB

Added on: 09-Jun-2005 Downloads: 127

### FS2004 Rolls Royce Trent 800 Series Sounds For The Boeing 777

Description: After a long a grueling 3 and a half months of work, Ladies and Gentlemen I present to you my Rolls Royce Trent 800 sounds. All of the sounds included in this package were carefully taken and chosen from some of the best Trent 800 recordings around, ultimately giving you an awesome, powerful crystal clear stereo experience in Flight Simulator. Whatever your needs this soundset will cover you in every single aspect of all your Flight Simulator demands bringing you once step closer to the real Triple 7. Just get any RR powered 777 that you can get your hands on preferably the Meljet 777. I'm also proud to present to you FS Sound Project's thrid release, my recently devised sound group to release quality freeware titles under. You can visit us at [www.fssound.cjb.net](http://www.fssound.cjb.net) and I would appreciate you to take sometime and register on our forums and express how you feel about these sounds, all comments accepted. These are truly "As Real As It Gets". Please Enjoy!!! Emil Serafino Jr. (FS Sound Project)

### IAE V2500 Sounds For the Airbus A320 Family

Description: IAE V2500 Sounds For the Airbus A320 Family I created a V2500 Soundset Because I felt that their weren't any good V2500 sounds available on the internet. So I used my experience in FS Sound Design to bring you an ultra realistic V2500 SoundSet. These sounds properly capture the sounds of the Airbus A320 from every stage of flight. For realism I suggest that you compare these sounds to videos at [Flightlevel350.com](http://Flightlevel350.com). If you had not noticed yet I released my New A300/A310 GE Sounds V4 to Avsim, You should furthermore compare them to videos at [flightlevel350.com](http://flightlevel350.com) also. Search my name there and my videos will come up. Emil Serafino Jr.
