FS2004 USAF Southwest ANG AI Package

Description: This freeware AI package contains almost everything needed to fully activate the Air National Guard flying squadrons of four Southwestern states: Arizona, New Mexico, Oklahoma and Texas. As a bonus, one squadron of Air Force Reserve Command F-16s is included. It includes flightplans for more than 160 aircraft including 8 squadrons of F-16s, 2 special F-16 units, 1 squadron of KC-135s, and 2 squadrons of C-130s. It also includes a few C-26s assigned to the F-16 squadrons. One AI model must be downloaded from ProjectAI using the links in the installation section, but everything else including the remaining models, realistic aircraft textures (2 per fighter squadron, 1 per transport squadron), unique callsign voicepacks for each squadron, AFCADs for each squadron ???s home airport, and flightplans is included in this package. Dan Bourque

FS2004 Yak-42 for AI use. 3D Model v.1.0

Description: Yak-42 for AI use. 3D Model v.1.0 Hello, I've been somewhat unhappy with the existing model which traffic developers used for their needs. Thus I decided to create the dedicated ai model from the scratch. It's gmaxed and has all necessary animations, also textures are placed within single 1024x sheet and triangles do not exceed 3000.-Credits: 3D model by Anton Nikolaev (aka Xomer) and copyrighted. Preferably via: www.xomer.narod.ru TAW livery by: Pantee Farhangi
