FS2004 Airbus A380 Panel

Description: Airbus A380 Panel for FS9. An updated version of my previously released Airbus A380 panel for FS9. Celebrating Airbus' recent rollout of the gargantuan A380 passenger-liner, this simple, and intuitively easy to use panel uses many default gauges in conjunction with more advanced gauges available as freeware. Redistributed here with permission of the original authors - with special thanks to Mike Stone for use of his A380 EICAS gauge. Tasteful night-lighting and good frame-rates make this panel a joy to fly under all flight conditions, especially on-line. Consult the README file and enjoy! By Alex Christoff
Version: Freeware Filesize: 2.66 MB

FS2002/2004 Avro RJ-85 Repaint of Mike Stones model

Description: FS2002/2004 Avro RJ-85 Repaint of Mike Stones model. Texture with full night lighting, highly detailed and improved with better windows and more detailed doors. Full moving parts. Model with full working ATC sounds (airline, type...). Works also as AI-aircraft. To increase the flight performance in AI, the .air-file, which controls the flight dynamics should be replaced with this one from the default B737 (only AI).

FS2004 BAe 146-200/300 QT Version 6.0

Description: BAe 146-200QT aircraft model. This release marks the third year of development for my 146 model, and with the recent release of FS2004: A Century of Flight, this latest version not only incorporates the best features our favourite sim has to offer, but introduces a new concept in the form of ?öAIS ???, more on that shortly. For future updates visit: <http://arnz.myhost.co.nz> Jon ARNZ
