FS2004 Scenery CYZT Port

Description: This file contains scenery created for FS2004 using Lago's FSE program. You must have FSE and the FSE Exchange Module installed on your computer in order to use it. Based on photos and charts. All buildings replaced.

AFCAD modified to be more accurate. The terminal building is now the correct size and shape. The control tower is based on the real thing. The area around the airport has been heavily forested. Lights, fences, etc. Some of the shrubery will change depending on the seasons. Compatible with default scenery or Ultimate Terrain (read the instructions!). FSE

FS2004 Scenery of Quixada City (CE), (Brazil)

Description: Scenery of Quixada City, that is located in northeast of Brazil in South America (state of Ceara). Region spotted with monoliths or rare beauty. City with greatest index of UFO apparitions. The "World Cross Country Capital", receiving pilots from all over the world for the great XC challenge through the Brazilian free flying paradise. The event XCear, is a Cross Country event, getting pilots together trying to break their own records and also local, continental and world records. It is, above all, a meeting of pilots from all over the world, flying together with the same aim: fly as far and as fun as possible. www.xceara.com.br. By Cicero Costa.
