### FS2002 FS2004 Tu-134 Aviogenex

Description: Aviogenex was former Yugoslav main charter operator, operating with Tu134, at the beginning and replaced by B737 and B727 during 80'es. Mostly carrying passangers from Europe to the Adriatic coast. They were based at Pula, Split and Dubrovnik. This model represent the aircraft as it was in 1984. The model together with Mike Maarse earblowing sound of Soloviev D-30 III engine, brings the flashback of noisy and smoky aircraft as they were at that time. The model is made for FS2002, but runs just fine on FS2004. P.S. Mark, hope you like her. It took some time before release. George Sukhykh

### FS2004 Tupolev Tu-134A-3

Description: Tupolev Tu-134A-3 by George Sukhykh, in Pulkovo Aviation livery, registration #RA-65109. This is a wonderful GMAX rendition of the Soviet airliner almost forty years old, and still very much in service. This aircraft works well as AI too, and will not kill your frame rates. Original aircraft by George Sukhykh. Enjoy! Mike Pearson Peoria, Arizona USA
