FS2004 Antonov AN-225 Sovjet Space Agency

Description: The Anotonov-225 "MRIYA/DREAM". This one is the biggest and heaviest aircraft flying on Earth. She was designed to carry the Soviet space shuttle "Buran/Snowstorm". After spending years of inactivity at Kiev Airport after the Buran program was canceled, she was put back into service in 2001 to assist her smaller sister an124. This paint scheme shows her colours during the Buran program. Model and Textures by Tom Ruth. Modified default 747400 aircraft.cfg by Alexander Kvitta and Thomas Ruth.
